

Shashi Shekhar Singh

Full Stack Developer

+91 7379935535 — shashiss0708@gmail.com — LinkedIn — GitHub — Portfolio

Professional Summary

Full Stack Developer with nearly 4 years of experience designing and developing scalable MERN stack applications using Node.js, Express.js, React.js, TypeScript, MongoDB, and PostgreSQL. Strong expertise in building REST APIs, SQL/NoSQL database solutions, authentication systems, and AWS cloud deployments. Experienced in developing high-performance and scalable web applications.

Experience

Koolmind Technolab LLP

Oct 2022 – Jun 2026

Full Stack Developer

Ahmedabad, India

- Designed and developed scalable RESTful APIs using Node.js and Express.js for E-commerce, Real-Time Communication, and Live Streaming applications.
- Designed MongoDB database schemas and optimized queries to improve application performance, scalability, and data retrieval efficiency.
- Implemented secure authentication and authorization mechanisms using JWT and role-based access control (RBAC).
- Integrated real-time communication and calling features using Socket.IO and Agora for chat, audio, and video interactions.
- Integrated third-party services including Firebase, payment gateways, and AWS (EC2, S3) to ensure reliable and scalable application deployments.
- Developed responsive and reusable React.js components using Hooks, Redux, Material UI, and Tailwind CSS, enhancing user experience and maintainability.

Skills

Backend: Node.js, Express.js, JavaScript (ES6+), TypeScript, REST APIs, Microservices, MongoDB, SQL, PostgreSQL, JWT, Redis

Frontend: React.js, Next.js, Redux, HTML5, CSS3, Tailwind CSS, MUI

Database: MongoDB, SQL, PostgreSQL

Cloud & Tools: AWS (EC2, S3, SES, IVS), Docker, Git, GitHub, Postman, Jenkins

Integrations: Firebase, Socket.IO, Payment Gateway

AI Tools: ChatGPT, Cursor, Claude

Projects

Healthcare E-commerce Platform | Node.js, Express.js, MongoDB, React.js, AWS

- Designed and developed REST APIs for product, cart, and order management using Node.js and Express.js.
- Implemented end-to-end e-commerce logic including cart lifecycle, stock handling, and custom payment processing.
- Built secure authentication, MongoDB schemas, and integrated backend with React.js admin dashboard.

Chat Application (V-CONNECT ELEVATE) | Node.js, Express.js, MongoDB, Socket.IO, Firebase, React.js

- Developed backend for real-time chat and calling using Node.js and Socket.IO with JWT-based authentication.
- Designed MongoDB schemas and integrated Firebase for push notifications and real-time alerts.
- Built React.js frontend and admin panel for user and content management.

Kharedo Live | Node.js, Express.js, MongoDB, AWS IVS, Socket.IO, React.js, AWS, Firebase, Docker, Jenkins

- Led backend architecture and developed scalable REST APIs, and real-time event processing.
- Integrated AWS IVS for low-latency live video streaming and interactive live-commerce experiences.
- Built and maintained the admin portal for managing sellers, products, orders, and live events.

Digital Doorbells | Node.js, Express.js, MongoDB, Socket.IO, Agora, AWS, React.js

- Developed a backend enabling real-time visitor communication using Node.js, Socket.IO, and Agora (audio/video calling).
- Built secure REST APIs, implemented JWT authentication, integrated Razorpay payments, and optimized MongoDB schemas.
- Deployed on AWS (EC2, S3) and contributed to React.js admin dashboard development.

Education

Bachelor of Technology

Dr. A.P.J. Abdul Kalam Technical University (AKTU)

Aug 2016 - Sept 2020

Lucknow, U.P

Achievements and Certifications

- Recognized as **Best Employee of the Year – 2024** at Koolmind Technolab LLP for outstanding technical contribution and project delivery.
- HackerRank Certified in **Problem Solving** – Demonstrated strong algorithmic and logical problem-solving skills.
[View Certificate](#)
- HackerRank Certified in **JavaScript** – Validated proficiency in ES6+, core JavaScript concepts, and backend fundamentals.
[View Certificate](#)
